Underpinned by our key strengths

**INTEGRATED
MOBILITY
ECOSYSTEM**

A key player in South Africa's Mobility Market,
striving toward market leadership.

CFAO South Africa is committed to the upliftment and development of People, the Community, and the overall sustainability of the Environment.

Our three key commitments:

Transformation

We are committed to training our team, supporting our colleagues' children's education, and enhancing job prospects for young people through tailored industry training.

Carbon Zero

Reducing our greenhouse gas emissions by 50% by 2030 and by achieving carbon neutrality by 2050.

Safety / Anzen

Taking Steps Toward a ZERO Accident Culture. Our top priorities include:

- Preservation of human life,
- Well-being of our colleagues,
- Access to a safe workplace

**Our contribution to
Sustainable development**

Campus South Africa, launched in February 2024, serves as a central hub for learning, growth, and empowerment, primarily supporting training across our South African subsidiaries and English-speaking African nations.

Demonstrating our commitment to development, we plan for CFAO Campus South Africa to host multiple development programmes, creating a unified global learning ecosystem and offering diverse courses to our colleagues in South Africa and beyond.

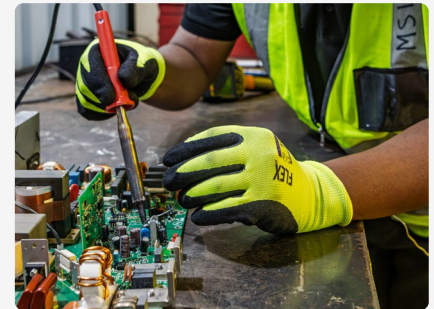

In collaboration with leading business schools and training providers, the campus actively shapes CFAO's future through meaningful learning and development initiatives, developing critical skills and leadership capabilities to meet our strategic objectives.

Toyota Material Handling specialises in the sale of new & pre-owned forklifts & warehousing products

Products:

Counterbalance equipment:

The global leader in the material handling counterbalance equipment sector

Specialising in:

- Diesel forklifts
- Gas forklifts
- Electric forklifts
- Tow motors

Warehousing equipment:

Toyota material handling:

The global leader in the material handling warehousing equipment sector, including the supply of powered pallet trucks, stackers, order pickers, reach trucks, very narrow aisle forklifts (VNA) and tow tractors

Globally recognised manufacturers of premium mobile platform equipment for retail, industrial and warehousing applications

HelgeNyberg AB

Swedish manufacturer of innovative trucks, and trolleys to streamline warehousing activities and increase profitability

Pre-owned equipment:

A wide range of quality pre-owned equipment, including:

- Warranties
- Load test certificates
- Service and maintenance agreements

Saficon Industrial Equipment:

Articulated forklift for narrow aisle. Offering high lift demand, stability, and operational efficiency

Industrial Power specialises in lead-acid and lithium-ion batteries, as well as a range of battery chargers.

Specialising in:

Lead Acid batteries

- Robust, cost-effective motive power solutions designed for heavy-duty applications

Lithium-Ion batteries

- Fast-charging, maintenance-free solutions that maximise uptime & reduce energy costs

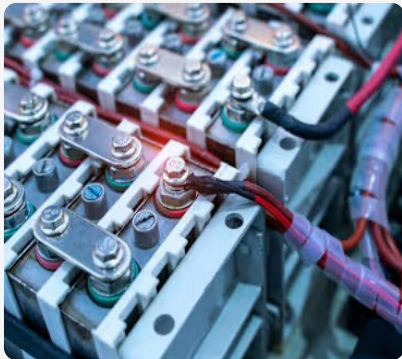

Smart Charging Systems

- Energy-efficient chargers optimised to extend battery life and improve productivity

Battery Monitoring & Watering Systems

- Real-time tracking and automated maintenance to ensure optimal battery health

A pre-owned battery undergoes detailed inspections, capacity testing, and servicing, guaranteeing optimal efficiency and extended battery life.

Our selection includes:

Pre-owned Lead-Acid Batteries:

- Fully serviced, cost-effective motive power solutions

Pre-owned Lithium Battery Packs:

- Refurbished, high-efficiency power systems with fast-charging capabilities

Pre-owned Smart Chargers:

- Reconditioned, energy-efficient chargers for maximum battery longevity

Heavy Lift specialises in the sales and maintenance of container-handling equipment and forklifts ranging from 10 to 70 tonnes, supplying ports, container depots and terminals, and the mining and petrochemical industries.

Products:

Distribution partner of
KONECRANES

Superior Swedish lifting equipment including container lift trucks, reach stackers and forklift trucks

TERBERG

Netherlands-based specialists in the design of terminal tractors for ports, logistics and airports

Link-Belt
CRANES

American mobile crane equipment, including telescopic trucks, and crawlers, as well as rough and all-terrain machinery

600SA specialises in the assembly and sales of high-quality refuse compactors, and PESCI-COPMA knuckle-boom truck mounted cranes

Products:

Refuse compactors designed to operate in the domestic waste collection sector and throughout Africa

The PESCI®-COPMA® cranes can lift loads ranging from 2 tonnes per metre to an impressive 75 tonnes per metre and reach a maximum vertical height of 29 metres, depending on their size and functionality

A supply chain management and production assembly specialist delivering a range of value adding solutions for the South African automotive industry.

Services:

- Production parts procurement, customs clearing, warehousing and distribution, logistics and parts assembly
- Steel material sourcing, metal recycling, steel sheet processing
- Plastics raw material procurement
- Consumables and spare parts, machine installations, agency distributor business, engineering business solutions
- Vehicle logistics management and post-production accessory fitments and conversions

Associated companies:**Toyoda Gosei South Africa**

Manufactures and assembles automotive components such as airbag modules and rubber sealing products
